### **Lisa's Sun (by E. Trivizas)**

A woman gives Lisa, the heroine of the book, the recipe how to make the summer sun.

First, Lisa flies to Bosphorus Sea on a magic carpet and buys sunflower seeds from a boy. Later, she goes to Belgrade by train and plants the black seeds with a spoon. Then, she goes to Kiato and takes fresh eggs, then to Lisbon to take a crown.

Later Lisa goes to Canada and fills a cup with orange juice. She arrives at Ymitos mountain on a horse to take some honey from the beehives there. She travels to the Sargasso Sea like lightning to cut a carnation.

Our friend, Lisa, goes to Paris with her friend Ann who gave her a watering can and scissors. Then she took a whistle from Rio, riding a pink bus.

Now Lisa knows what to do when it rains. She can repeat the recipe in her mind and have her own summer sun.
